ABOUT US

Britco & Bridco, The First and Exclusive mobile phone Institute in Asia has the widest service centre network across the globe in this field of mobile phone technology, established in the year of 1998 at Kottakkal, the world renowned Ayurvedic town, Kerala.

The world wide acceptability of Britco & Bridco students proves the value of the training provided by the company and we are proud of our Alumni who are working around the globe with multinational mobile manufacturers and running own businesses. Britco & Bridco is an ISO 9001 — 2008 certified company with an international perspective.

OUR VISION

Creating and enabling customer centric, research & innovation Focused, global technopreneurs who would be the key drivers of communication technology industry. We keep our motivation of ability to be updated and rapidly provide solutions in complex and technoworld.

OUR MISSION

To deliver quality and innovative training to mould World class Technopreneurs. Assure Eco-friendly, reliable Diagnosis and Fixing of communication devices. Manufacturing high quality tools and supply of spares to the communication industry.

Smartphone Repairing

Britco & Bridco assures reliable and genuine repairing of all kinds of mobile phones by experts in the industry using highly sophisticated equipment. Exploiting the situation, many youths plunged in to the repairing field of mobile phone without adequate know-how, resulting in heavy damage to handsets. In such a scenario Britco & Bridco assures quality spares, reliable, sophisticated equipment, safeguard privacy of customers and professional way of repairing to the end users

Quality Spares & Tools

Mobile phone repairing industry faces the lack of adequate, appropriate, quality and tested tools and spare parts. Here Britco & Bridco assures genuine spare parts and tested tools with the best after sale supports. Moreover Britco & Bridco manufacture and imports many repairing tools and equipment with an assured quality. Our main products are the tools, equipment for telecommunication product's repairing. Our products are popular in major domestic and international communications market.

Technician Supply

Mobile phone industry is growing very fast and the scope of the business in this field also in the same track. Britco & Bridco responded adequately to the demand of qualified mobile phone technicians from each and every corner of the world and provides the qualified and committed smart phone service engineers around the globe. Britco & Bridco provides technicians, faculties not only to individuals or firm but for manufacturers and MNCs to fill their requirements in higher level repair factories. We proud of our alumni they are leading key posts in MNCs.

Smartphone Training

Britco & Bridco provides hi-tech training to repair all model mobile phones, smart phones and tablets using State of the Art technology, which is supplemented by well qualified and experienced faculty with an updated syllabus through which even a matriculate can be made industry fit rather than a certificate holder. The pattern of training has been designed in such a way that, a student after getting adequate training and experience from the Company will be raised to become a Technical Expert and further to be a Technopreneur. We provide product wise demonstration courses for trending equipment and also available up-gradation courses for existing technicians in this field. We proudly says that we have thousands of successful alumni from almost all the continent.
